

Miconazole

Your patch tests indicate that you have a contact allergy to miconazole. This means that you should avoid contact with this substance in the future.

Miconazole is an anti-fungal found in creams, gels, vaginal capsules and dusting powders.

Miconazole is closely related to other antifungals in the same imidazole group. Rarely the other imidazole antifungals, clotrimazole and econazole, may cause your skin to react too.

Miconazole is found in the following products:

- Daktarin oral gel
- Miconazole cream and gel
- Daktacort cream
- Daktarin Aktiv cream
- Daktarin Aktiv dusting powder
- Daktarin powder
- Gyno-Daktarin cream
- Gyno-Daktarin vaginal capsules
